

# TRIALSTAT Portal

A Jubilant Life Sciences Company

TrialStat Portal provides ultimate study management through real-time visualization of your study data. It seamlessly integrates with all TrialStat products creating user dashboards to drill down and retrieve data. Portal enables users to make critical decisions quickly and efficiently to continuously maintain control of the study.

## Empower your Site

TrialStat Portal provides a central location for all site documents and communications. Sites are engaged with project news, site-specific documents and information and real time site comparison data to help with enrollment and compliance. In addition, sites can directly ask questions related to the trial or access prior inquiries.

## Removing Sponsor Limits

Sponsors are provided with real time dashboards, removing the barrier of weekly and monthly reports and ensuring trials progress efficiently. TrialStat Portal gives Sponsors access to all of the data in Real-Time within a simple easy-to-use, intuitive dashboard.

## Enhance CROs Capabilities

By using TrialStat Portal CROs efficiently inform and manage sites in a streamlined fashion. Additionally, by having all data in one central database, Project Managers can identify early trends and issues from a comprehensive set of key metric reports. Having access to this data in real-time sites are informed and notified as soon as issues and trends arise, allowing them to adjust before it impacts the study timelines preventing unnecessary delays

## TrialStat Portal –

### Real-Time Data & Decisions
